

Shelving Racks for Cold Room & Freezer Room

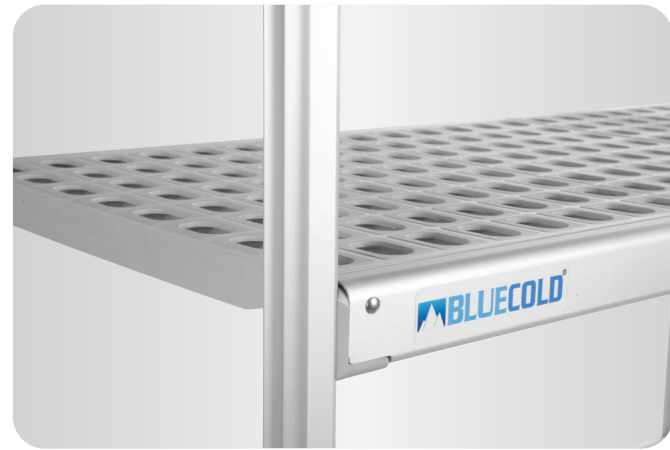

Ideal Solution to Organize Available Storage Space

Why shelving racks in cold storage?

Even the most robust designs require easy and quick installations

The modular shelvings are the ideal solution for anyone who need to organize, handle, display and make the most of available storage space in compliance with hygiene standards.

Made entirely from anodized aluminum alloy or stainless steel, they are guaranteed to offer lasting stability against corrosion by water and moisture and provide a high standard of hygiene. Both stable and sturdy, they do not need any special fastening or anchoring, while they are built to take heavy loads with minimal bending in varied temperatures of cold rooms and cold warehousing storage. The extreme simplicity and speed of assembly achieved by slot fitting system mean assembly is quick and easy and can be performed without using any special tools.

Features

Customized Design:

We offer extensive choice of standard sizes which makes our shelving highly adaptable. Our options of various combinations resulting in considerable space saving.

Wide Temperature Range:

Both stable and strong, these shelving is designed to take heavy load with minimal bending and sustain in varied room temperatures ranging from 40 °C to -45 °C.

Easy to Install:

The simplicity of installation procedure and speed of assembly is possible because of slot fitting system mean assembly is straight forward and fast & can be performed without usage of any special tools.

Easy to Clean:

The smooth, rounded surfaces and the total absence of gaps and cracks combine to deliver a high standard of hygiene and makes it easy to clean.

Advantages of Placing Shelving in Cold Rooms

1. Air circulation among all products

With Shelving

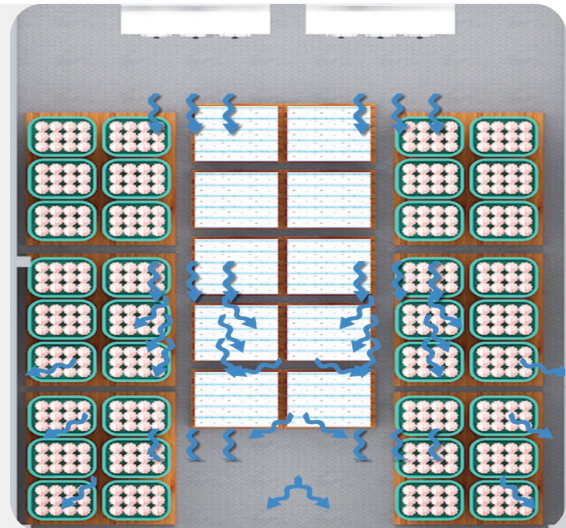

Without Shelving

2. Uniform air flow across the room
