

COVID-19 Testing Market Map

Molecular Testing

IVD Molecular Test

Lab-based, high-throughput molecular tests

Note: 25 other manufacturers have FDA EUA authorized IVD molecular tests

Point of Care Test

Rapid molecular tests for use in the field

Antibody Testing

ELISA Test

Lab-based antibody tests

Note: Abbot and Roche ELISA tests are not FDA authorized yet

Rapid Diagnostic Test

Rapid antibody tests, for use at the point of care

All manufacturers included have FDA EUA authorized tests on the market for the specified test category, with the exception of Abbott and Roche's ELISA test
