Laban (40)	Comparing the Rankings It is interesting and helpful to compare the rankings of various characters on each of the Top 55 Bible Bingo cards. For instance, on this card it is important to notice that the Lord Jesus (#1) greatly outranks Mary (#52) since she is mentioned far less. Likewise Peter (#13) also outranks Mary by a wide margin since he too is mentioned far more often in the Gospels and Acts.		Elijah (27)	Playing the Game The game is played like any other Bingo game aside from three special features. First , there are <u>four blank "crossroad" squares</u> which must be filled in with four additional names from the Top 55 list on the back. (<u>The same name may not appear twice!</u>) Second , the game leaders should make comments on the various characters. Third , there are six ways to win, but none of these are diagonal.		Elisha (24)

For instance, King Jeroboam (#29) and Rehoboam (#39) are often confused. These can be differentiated by noting that Jeroboam is mentioned far more because of his sin of setting up idols in Bethel and Dan. Though Solomon's son was unwise, Jeroboam was worse.		Ezekiel (28)	Playing the Game The game is played like any other Bingo game aside from three special features. First , there are <u>four blank "crossroad" squares</u> which must be filled in with four additional names from the Top 55 list on the back. Joshua (12)	Crossroads Christ-Centered BIBLE BINGO		Absalom (23)	The Names and Numbers The names on this card are all from the Bible Top 55 list of those mentioned most in the Bible. (The list is on the back.) The number with each name is the frequency ranking of that Bible character. The Lord Jesus, who is mentioned far more often than others is, of course, number one. Occasionally, multiple characters are mentioned the same number of times. So Esau and Jonathan are tied at #25.	King Saul (4)	
Balaam (42)			Elisha (24)		Jonathan (25)	
?	Sarah (37)	Peter (13)	The Lord JESUS (#1)	Paul (10)	Mary (52)	?
Ezekiel (28)	Comparing the Rankings It is interesting and helpful to compare the rankings of various characters on each of the Top 55 Bible Bingo cards. For instance, as seen on this card Paul (#10) outranks Peter (#10) even though the author of Romans is never mentioned in the Gospels like Peter is. Paul is more prominent overall because he is the leader in much of Acts and describes himself various ways in his Letters.		John the Baptist (22)	Playing the Game The game is played like any other Bingo game aside from three special features. First , there are four blank "crossroad" squares which must be filled in with four additional names from the Top 55 list on the back. (The same name may not appear twice!) Second , the game leaders should make comments on the various characters. Third , there are six ways to win, but none of these are diagonal.		Noah (47)

For instance, one of the greatest surprises for many is that King Saul (#4) is ranked so highly, outranking King Solomon (#5) and King Hezekiah (#17). This is probably because Saul's failure pointed to the need for the Messiah. Of course, David's failures did so as well. For instance, David's military leader, Joab (#18) , and Saul's general, Abner (#42) , are both on this card, and Joab obviously is mentioned in the Bible far more than Abner. Why? The record shows that it was better to serve under David. Yet, Joab was not a better man.		Peter (13)	Playing the Game The game is played like any other Bingo game aside from three special features.
