VINEYARD NOTES

The vines are deeply rooted in a crumbly soil born out of metamorphic schists and clay. This unique terroir allows for rich nutrients, water availability and an optimal temperature for the development of the vines and their fruit. Grapes are harvested before sunrise in order to keep their freshness and to prevent oxidation. Harvest dates are calculated according to the sugar levels in the berries. In 2021, the harvest started Aug 13th until Sept 3rd.

WINEMAKING NOTES

After a first sorting in the vineyard, slow and selective pressing is done upon arrival of the grapes. Juices are racked at low temps and the fermentation occurs in traditional temp controlled stainless steel vats. Blocking the malolactic fermentation allows for the true expression of the Porquerolles terroir.

TASTING NOTES

Shiny color, brilliant bouquet of exotic fruit, lime, white flowers, arugula, delicate aromas that give in the mouth a mineral dimension and a lemony freshness. Distinct salty finish coming out of this unique terroir.
Food pairing: Its elegance and freshness will be the perfect match for a shellfish platter including oysters, urchins, also rockfish.
