

DAIRY RANGE

# Maximize PLUS<sup>®</sup> Pellets

Maximize PLUS<sup>®</sup> is a high energy, high protein feed, designed to increase the energy intake of cows grazing medium quality pastures and forage without the risk of acidosis.

## Features

**Nutritionally balanced ration**

> Meets the demands of high producing cows

**High energy**

> Increased milk and protein production

**Can be fed safely to dairy cattle**

> Needs no introduction period

**Provides a stable rumen environment**

> Allows the rumen bugs to work efficiently to extract more energy from grass and concentrates

**High protein ration**

> To balance medium quality pastures and hay and silage diets

**Bypass protein added**

> Together with stable rumen, allows more efficient use of soluble N by rumen bugs - less N excretion and higher milk production

**Vitamin/Trace mineral premix**

> Provides essential vitamins and minerals for high producing cows.

**Contains Bovatec<sup>®</sup>150**  
(lasalocid sodium)

> Improves feed conversion efficiency and aids in the prevention of coccidiosis  
> Aids in the reduction of bloat from pasture, and reduction of Ketosis in dairy cattle which can aid in reducing the incidence of clinical mastitis in lactating dairy cows

**Complete supplement**

> Additional feed additives normally fed to prevent acidosis are not required.

**Pelleted Feed**

> Reduces dust and prevents wastage

**No ingredient separation**

> Even nutrient blend received by each cow

## NUTRITIONAL ANALYSIS

Nutrients	Dry matter basis
Crude Protein (min)	21.0%
Metabolisable Energy (min)	13.0 MJ/kg
NDF	22.0%
Calcium (min)	0.5%
Total Phosphorus (min)	0.4%
Urea (max)	0.5%
Lasalocid	66mg/kg

## INGREDIENTS

Wheat, barley, oats, lupins, canola meal, limesand, dicalcium phosphate, salt, vitamin/trace mineral premix, lasalocid sodium.

## FEEDING DIRECTIONS

Maximize PLUS<sup>®</sup> is designed to be fed to dairy cows in all stages of lactation, providing a safe, high energy and protein source to cows grazing medium quality pasture, or being fed hay or silage based diets.

Maximize PLUS<sup>®</sup> can be fed in a bail or as part of a total mixed ration (TMR). The quantity fed should be adjusted according to the cow's production and body condition and the availability of quality pasture.

**Maximize<sup>™</sup>+**  
Maximum milk yield, minimum fuss.
