

EcoCheck

A cleaner option for a brighter tomorrow.

Making eco-friendly travel choices has never been easier with Deem and EcoCheck. As travelers make air, hotel, and rental car reservations, EcoCheck presents them with carbon dioxide emissions scores directly from the booking flow.

With accurate, up-to-date emissions data presented to travelers, they have everything they need to make more sustainable travel decisions. Give your team the easy way to think green thoughts and lower the carbon impact of your corporate travel program with EcoCheck.

Features

- | | |
|---|--|
| ✓ Reliable information | By partnering with Thrust Carbon as a sustainability data provider, EcoCheck provides accurate emission ratings measured by multiple systems including DEFRA Fuel methodology, ICAO, spend methodology and more. |
| ✓ Clear sustainability ratings | EcoCheck displays emissions data for every step within the booking flow, so travelers can quickly assess the ecological impact when looking for a flight, a hotel, or a car rental. |
| ✓ Eco-friendly and people-friendly | With EcoCheck, any organization shows its devotion to a greener tomorrow, helping to attract and retain talent who prioritize corporate sustainability policies. |
