

LINCOLN

BENEFITS

- Easiest installation in the industry—faster, with better results, save labor
- Code tested—meets IRC code requirements
- Solid with no rattle (PVC filler in all top and bottom rails)
- Available in 10' lengths—won't sag like composite railing
- Textured, powder-coated aluminum (15 year finish warranty in most areas)
- True-to-length (ie. 6' = 72" of railing to fit a true 6' opening)
- Kitted section (top/bottom rail + aluminum inserts, support block, brackets and stainless steel hardware) in one box—easier to source
- 3/4" square aluminum balusters + designer baskets available
- Solutions for vertical (stair) and horizontal (variable angle wedge) angles
- Better curb appeal—hammered finish = non-glossy
 - Looks great on composite or wood decks
 - Use our drink rail brackets to simply add a deck board topper
 - Contoured Top Rail
- More sizes = more capability and smarter purchasing
- Proudly manufactured in the USA!
- Boxed 3 x 3 post kit (includes structural post, cap, and collar + leveling strips)
- Total solution—gate kits, post sleeves for existing wood posts, structural porch posts & secondary hand rail

ALUMINUM RAILING
