

MAKING LIVES BETTER FROM THE GROUND UP.™

Making Lives Better from the Ground Up.™

Founded in the Timber Capital of the World, Roseburg is a family-owned company that has been providing our clients high-quality wood products that enable them to meet and exceed the needs of their own customers since 1936.

We pride ourselves on a deep commitment to responsible management and comprehensive forest-to-finish vertical integration.

Fortified by a workforce of passionate, values-driven team members, we are dedicated to growing our business by ensuring the complete satisfaction of our clients and enhancing the quality of life of our people and the communities they call home.

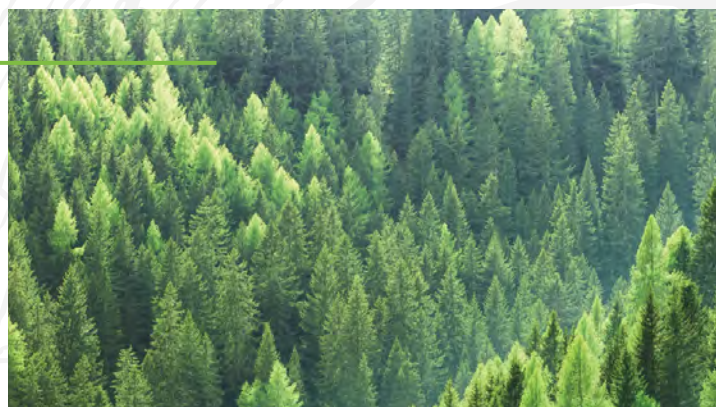

Core Values

SAFE TO THE CORE
SAWDUST IN THE VEINS
HANDSHAKE INTEGRITY
DRIVEN TO WIN

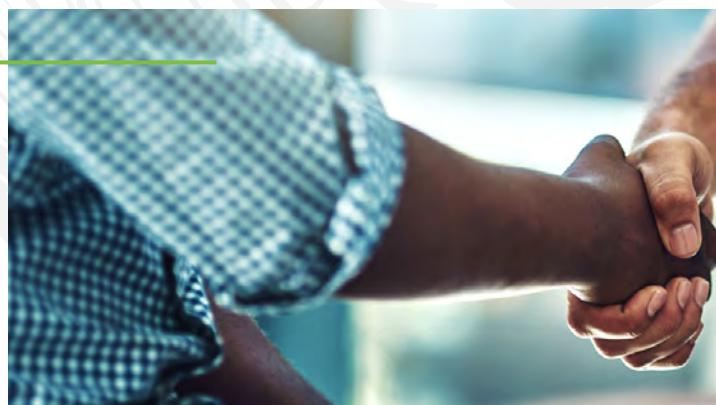

OUR LANDS

We own and sustainably manage over 600,000 acres of timberland in Oregon, Virginia and North Carolina. The annual harvest from our timber base ensures the quality and continuity of wood fiber supply to our diverse manufacturing facilities.

OUR CHANNELS

We market our brands through a variety of channels: Wholesale and Industrial Distributors, National Home Centers, Original Equipment Manufacturers (OEMs), Dealers (Pro Yards), Buying Groups and Custom Laminators and Panelizers. In addition, architects, designers and builders around the world confidently specify our brands.

OUR PEOPLE

We employ over 3,500 talented and experienced team members in more than 200 communities throughout North America.

OUR MANUFACTURING

At Roseburg we provide a level of service to our clients that is unrivaled in the wood products industry. To this end, we manufacture a diverse and dependable array of wood products that meet or exceed the industry's highest standards. Our primary goal is to provide the reliable service and outstanding products our clients need to ensure they are able to meet the needs of their own customers.

Roseburg

Forest-to-Finish Wood Products

From our vast timberlands to our facilities and into the hands of our clients, Roseburg's vertically integrated approach ensures we are well positioned to meet the demands of the marketplace today and tomorrow.

Roseburg

Forever Growing

Roseburg is deeply invested in the timberlands we own and the communities in which we work and live. Our continued health is dependent on the health of our most important assets – our forests, our team members and our communities. As they grow, we grow.

ENSURING THE HEALTH OF OUR FUTURE

Our timberlands are the foundation on which Roseburg was built. We manage our trees and the land that nurtures them with a long-term vision for the future. Our stability as a company depends on the cycle of planting and sustainably harvesting this miraculous renewable resource through responsible forest management.

We care for our trees by cultivating healthy soil and clean water. We monitor their growth with sophisticated technology and mapping systems. And we secure our future with a reforestation program that keeps our timberlands growing steadily every year. We plant more trees in Oregon, North Carolina and Virginia than we harvest, enhancing recreational activities for residents and visitors while protecting and investing in our water, soil, fish and wildlife resources.

After harvest, we use the whole tree, making sure nothing goes to waste. At our plants, our no-waste manufacturing process ensures that any excess wood residuals are converted into green energy and used to power the systems that produce the wood products that surround us every day.

**MAKING
LIVES BETTER
FROM THE GROUND**

A person wearing an orange hard hat and a high-visibility vest stands in a forest. The background is a dense forest of tall, thin trees with green foliage. The person's arm and part of their torso are visible in the foreground, wearing a grey long-sleeved shirt and a bright green high-visibility vest with reflective orange stripes.

ENHANCING THE HEALTH OF OUR COMMUNITIES

In service to Roseburg's mission to Make Lives Better From the Ground Up, we are deeply committed to giving back to the communities where we live, work and play.

The Ford Family Foundation, a separate entity formed by Roseburg's founders, is the largest charitable organization in the state of Oregon, providing millions annually to programs that support education, the arts, economic development and more.

Organizationally, Roseburg gives back to its communities through an array of initiatives, such as matching employee contributions to annual giving campaigns; funding a Sons & Daughters Scholarship Program; encouraging employees to volunteer for their favorite organizations or causes; and donating wood products to important programs in need.
