

Hey Hero Founding Engineer

Cameo meets Masterclass! Hey Hero is an innovative online marketplace, connecting users with their favorite advisors for personalized advice via video message. Looking for answers to life's most confounding mysteries - love, relationships, career, financial planning? Well now it's at your fingertips on Hey Hero.

We are a vibrant team based in Venice, CA looking to bring on our first Founding Engineer to join our all-star roster.

About the position:

As the first full-time Founding Engineer, you will partner in the startup's vision and trajectory, playing a key role in the direction and architecture of our technology. In this start-up role, you will have the joy of seeing the direct and immediate impact of your work.

We're excited to see you flourish:

- Partner with Co-Founders and team on overall strategy and business priorities.
- Develop and oversee current and future versions of the platform.
- Write and ship code (end to end) at a high velocity, turning design mock-ups and written specs into performant and maintainable code.
- Lay the initial infrastructure to give Hey Hero a technical advantage as it scales.
- Build and manage a strong technical team to meet our short and long term technical needs.
- Bring a framework to manage technical deadlines and budgets.
- Deliver a strong QA strategy.
- Troubleshoot and debug to ensure consumer satisfaction.

Qualifications:

- 7+ Years experience as a full-stack engineer (preferable)
- 1+ Year of start-up experience
- BS/MS in Computer Science/similar quantitative engineering disciplines
- Excellent programming skills in Python, Java, C++, JavaScript, or similar languages
- Experience in bubble and webflow a plus
- Experience in building marketplaces on web and mobile
- Experience in Consumer facing businesses.
- Ability to help lead a development team and attract talent
- Ability to learn new technologies, tools, and platforms as necessary

A few things about yourself:

- Proven web and mobile app development.
- Strong coding skills in programming languages.
- Knowledge of development programming languages.
- Experience with third-party libraries and API.
- Exceptional team management skills.
- Strong analytical and communication skills.
- Self Starter and do whatever it takes mindset.
- Sharp, intuitive, and a team player.
- You are excited to create, dream, and deliver.

We appreciate you taking the time to learn about Hey Hero. If you're excited to help create the biggest network of trusted opinions, we'd love to talk!
