

The Company

FlipOS is a fast-growing tech start-up based in Scottsdale Arizona. Our patented platform enables Fix and Flip investors to work better & faster, ultimately revolutionizing the way in which homes are purchased, renovated and sold across the United States. It is a young and dynamic, fully funded start-up that was launched by a winning team of entrepreneurs with proven track records of success.

FlipOS is currently looking for a CTO to join our growing team! We are looking for a highly-skilled CTO with a storied history in the technological sector. Our CTO will be tasked with making executive decisions on behalf of the company, managing a technology budget and making investments to align FlipOS with its vision. The CTO must be a strategic thinker, an effective communicator, and an expert in technological development. The CTO will work directly under the CEO and will act both as a technology and business expert making decisions that will impact the current and future operations of the company.

The Role

- Setting the vision for how the company will use technology
- Leading infrastructure, information security and IT
- Growing the engineering team and leading it through major launches
- Ensuring that technological resources meet the short and long-term needs of FlipOS
- Outline the goals for research and development
- Creating timelines for the development and deployment of all technological services
- Making executive decisions on behalf of the company's technological requirements
- Maintaining a consumer-focused outlook and aiding the delivery of IT projects to market
- Managing technology budgets and time frames
- Staying on top of technology trends and developments
- Ensuring all technology practices adhere to regulatory standards

The Requirements

- Previous experience as a CTO or similar leadership role
- Startup experience and flexibility with managing staff in various time zones
- Experience building an agile development culture
- Familiarity with all relevant technological trends and technological infrastructures and be ready to deploy them within FlipOS
- Experience building agile teams
- Ability to understand different levels of development and the pros and cons of each
- Knowledge of technological trends to build strategy
- Understanding of budgets and business planning
- Excellent communication, leadership and strategic thinking abilities with a problem solving aptitude
- Acting as a mentor to team members while building and retaining the team at FlipOS
