Distributor's notes

The Piqueras and García families joined forces together in 1952 abbreviating their names to create Bodegas Pigar. Located in Campo de Arcís, a small town in Requena, province of Valencia. Juan Piqueras and Susana López took over two generations later and are making micro vinifications from the family's own 8 ha vineyards of planted grapes. Everything is farmed without the use of pesticides or chemicals of any kind. Total production is currently at around 9-10,000 bottles only in their tiny garage winery, much different than mainstream Valencian wineries that's for sure.

100% Chardonnay, organically grown and hand harvested, spontaneous fermentation with native yeasts in stainless steel. The wine is bottled under crown cap for ancestral and aged on the lees for 3 months, before being disgorged to order. No fining, filtering, or SO2 is used at all.
