Sizes

750 mL × 12 — SLV2000-21

Distributor's notes

100% Sémillon planted in 1948 on clay-loam soils of the Valle de Colchagua located 64k from the Pacific coast at 174 m elevation. Grapes are grown organically, and dry-farmed as well. Hand harvested, 30 days skin contact, spontaneous fermentation with native yeast in stainless steel tanks followed by a short aging process in the same tanks. Not filtered, fined, with low to no SO2. 4,000 bottles produced.
