Distributor's notes

New canned project from Jordi Llorens and Jordi Solé (winemakers) with Cristina Vaqué. Organically grown grapes in Tarragona at 316m elevation. A blend of Macabeu and Parellada, 20 year old vines, hand harvested, and fermented IN the can - preserving the bubbles making it delightfully spritzzy!

About the producer

We have created this path because we are passionate about the world of wine. We start from wines made with respect and health. The elaboration could not be any other way than obtaining natural wine. Our experience has led us to share a packaging, until now, unusual.

We think that the canned wine can be fun and practical ...and, undoubtedly, it preserves the fruit of the wine and the hands that take care of it .
