Distributor's notes

New canned project from Jordi Llorens and Jordi Solé (winemakers) with Cristina Vaqué. Organically grown grapes in Tarragona at 316m elevation. A blend of Macabeu and Parellada (on skins of Garnatxa and Syrah). Hand harvested, Parellada and Macabeu fermentation with indigenous yeasts, pressed and fermented on Syrah & Garnatxa skins in tank. Aging continues in clay amphora on the lees for 6 months. Canned unfiltered, with no SO2. Dark fuchsia hued, incredibly delicious and a little touch brambly.

About the producer

We have created this path because we are passionate about the world of wine. We start from wines made with respect and health. The elaboration could not be any other way than obtaining natural wine. Our experience has led us to share a packaging, until now, unusual.

We think that the canned wine can be fun and practical ...and, undoubtedly, it preserves the fruit of the wine and the hands that take care of it .
