### Distributor's notes

Co-ferment of Merlot & Muscat Ottonel. Merlot from "Las Violeta" (Canelones) and Muscat Ottonel was rescued from abandoned vineyards in "Rincón Del Cerro." Hand harvested, fermented separately - Merlot was the first to be harvested, looking for low alcohol content and a lot of freshness, while the Muscat Ottonel was harvested at the maximum point of maturation, macerated with skins for a week to provide aromatics and body. Native yeasts for fermentation, only tank for aging - blended and bottled with no fining, filtration, or added SO2.

Nakcool belongs to the Nat'Cool movement originated in Portugal (aka the brainchild of Dirk Niepoort). This project generate a union between producers of minimal intervention. Our red Nakcool is a smooth wine, very expressive on the nose, ideal for those who seek refreshing wines and those who are not afraid to finish the whole bottle.
