

Polyester Membrane Roofing Fabric RH53

PHYSICAL PROPERTIES :

RH53 Polyester Membrane has been designed and manufactured specifically to reinforce Eterna-Seal #7143 Base Coat or #7174, #7141 & #7165 Seam Sealer. Spot reinforcement is necessary when the Eterna Seal system is used over openings and joints wider than 1/8" (3mm). Full reinforcement is necessary on built-up, plywood, and concrete roofs. Refer to published guide specifications for additional details.

AVERAGE TYPICAL PROPERTIES

Weight	3 oz./sq.yd.
Tensile Strength	57.1 lbs.
