CARGO CARRYING CAPACITY is the total weight of cargo (in lbs.) the trailer will carry as currently configured. The weight of fresh & waste water, propane, supplies, clothing, gear, and food are all part of the cargo. (FYI, a full 100 gallon water tank adds about 830 lbs.) The GVWR as noted above must not be exceeded at any time. The 20K GVWR option will increase the GVWR to 20,000 lbs and will increase the Carrying Capacity as shown.
