YP Table

Yabu Pushelberg

Minimalism and elegance characterize the YP Coffee Table. A crisp architectural black-powder coated steel base supports a standard ½" glass top with a beveled edge that rests within the table's beveled frame. This sculptural single-form frame pushes the boundaries of furniture design. The table has a bold aesthetic with slender proportions and a visual lightness, allowing for modern design in both large and small spaces.

Frames available in chrome, black or clear coated raw steel.

Top available in low iron glass, caesarstone, veneer or P-Lam.

¾" thick glass top is also available with upcharge.
