Precedent® Workstation
Mark Müller

The Precedent® Collection offers a comprehensive range of modular components that can be combined to create simple office layouts or extensive management and executive work spaces. All components are available in a wide range of finishes that have been formulated for beauty and durability. Nienkämper is committed to providing exceptional value without compromising quality, craftsmanship, design or service.

Work Surfaces:

Tops are 1 1/4" thick, standard flat cut book matched wood veneer with solid wood Facet™ edge; available in standard Nienkämper wood veneers and stains. Asymmetrically radiused tops can be used to create workstations with soft shapes and curves. For heavy use areas, plastic laminate work surfaces with solid wood Facet edges are available.

Credenzas and Returns:

Credenzas are available in a variety of sizes and configurations. The smallest and simplest is a two pedestal unit, 31" wide. Credenzas can be specified with legal or letter width interiors. Returns are a minimum of 42" long and can be 24" or 30" deep.

Cases, Pedestal Fronts and Drawer Pulls:

Cases and pedestal fronts are wood veneer. Drawer pulls are cast zinc finished in brushed nickel, low luster black, or textured graphite black. Mobile pedestals (shown in centerfold) match Precedent details.

Locks:

With a quarter turn of one key, an optional gang lock system locks all doors and drawers located on either side of the credenza. Locks on desk pedestals and on knee space credenza pedestals are located in the knee space.

Workwalls and Storage Closets:

Cases and fronts are wood veneer. Overhead doors are opened via a concealed, scalloped indentation at the lower edge, which eliminates the need for exposed hardware. Closets can be configured to provide a range of storage options, including space to hang a coat.

Tables:

Nienkämper tables in a variety of shapes and sizes complement The Precedent® Collection and can be specified with the Facet edge. The Luna™ table (shown in centerfold) attaches to the credenza with a pivot mechanism that allows it to be repositioned as required.

Precedent® Workstation

Mark Müller

Workplace furniture that combines clean, classic lines with the natural beauty of wood always makes a professional impression and never goes out of style. That's why modular, versatile Precedent represents enduring value. Nienkämper's remarkable expertise using natural and stained veneers is evident in the careful matching of adjacent panels, and in the way the wood wraps smoothly around work surface edges. Precedent's durable finish ensures that all wood veneers and finishes will look their best for years to come.
