

Vox® Lectern

Mark Müller

Vox® Lectern

Mark Müller

The Vox® Lectern is designed to complement the Vox® Collection and includes a Facet edge and aluminum trim. The lectern is available in standard Nienkämper wood veneers and stains. Vertical legs, screen and Vox® Forum are available in anodized aluminum finishes: Clear, Champagne, Light Bronze, Bronze or Black.

Vox® Speaker's Lectern:

The front and user side have a Facet edge, with self edges on the sides. Two fluted aluminum Vox legs with flex panel on the front of the lectern conceal all internal wires.

Vox® Presenter's Lectern:

The Vox® Presenter's Lectern is pre-wired for a microphone. A pull-out shelf accommodates a laptop computer or projector. The lectern also includes a Vox Forum, which can provide connections for enhanced electronic presentations, and a storage area with push-latches on the doors.

The Vox® Presenter's Lectern has an aluminum screen to conceal the lectern work area. An aluminum microphone grommet (Model 23413) is pre-wired at top and floor level to a XLR jack for easy microphone hook-up.
