

Game Library by Playworks (Indoor or Outdoor Activities)

Need a group game for 30 kindergarteners, indoors, in a pinch? Trying to convince 5th grader boys to stop hogging the ball? We have you covered.

Explore hundreds of games by group size, available space and equipment, appropriate ages, and developmental skills. Our games are designed to keep all kids playing. You will see lots of games where everyone is “it”, ground-rules that keep games manageable for recess supervisors, skill-building variations on students’ favorite sports, and other adaptations that make games fun and inclusive for everyone.
