# PROCESS

HOW DO WE DO IT

# CREATING A MEMORABLE BRAND OR CAMPAIGN IS HARD.

It demands innovative strategy, the support of the best creative talent, flawless execution, intricate networks of specialized vendors, and precise timing and a village of crew especially when production is involved. Not to mention the essential, ever-elusive ingredient: a truly **GREAT IDEA**.

**Sounds awesome right?** But without a proven process all of this means nothing. That's why over the past decade, our team has meticulously crafted a **tried-and-proven playbook** on how to efficiently develop, validate and deliver successful creative projects.

# 1 IDEATION

**IT COULD BE YOUR IDEA. IT COULD BE OUR IDEA.**  
Either way, we put everything through the process:  
determining if it has potential to achieve the results you  
seek or if it will be another swipe.

2

VALIDATION

**MOST IDEAS SOUND GREAT.** BUT MOST AREN'T.

We play ideas out, testing against market research, customer engagement, logistical feasibility, cost analyses and more. And our previous projects have strengthened our intuitive receptors to determine which ideas are worth bringing to life.

3

# CREATION

**MAKING IT REAL.** **STORIES.** **PIXELS.** **CODE.**

Where the magic happens. Our team of industry-shaping producers, writers, directors, developers, editors, photographers, designers, and great-idea makers turn a validated concept into a real experience in the market.

4

# SCALE UP

**GROWTH MINDED.** FROM THE BEGINNING.

Our partnerships are like a garden, where the fertile soil we lay together nourishes ideas of any shape into growth and harvest. After completing projects, we reflect deeply on the outcomes, non-stop learning and improving our processes for the next.

LETS WORK

# MULTIPLE WAYS TO PARTNER.

### ONE STOP SHOP.

FOR ALL YOUR NEEDS.

WHY WE DO IT

# IT'S **BIGGER** THAN THE WORK.

Beyond the pixels, frames, and visuals we've had the pleasure of bringing to life... we are more than a creative studio. We are an **ethos of non-stop adventure** and we like to think our individual contagious energy infuses life into every partnership, making each project a vibrant journey.

OUR COMMITMENT

1% OF REVENUE TO ENVIRONMENTAL ORGANIZATIONS.

Nature is our source of inspiration. Looking back at our childhood years, our desire to explore the natural world is what inspired us to get into filmmaking in the first place.

Our partnership with 1% for the Planet is our way of starting to give back. It's a small step, but an essential one in changing our operations bit by bit in pursuit of a more sustainable business that is mindful of its environmental impact.

Next chance you have... take a nap on a log, go camping, jump in some water, get outside or appreciate the nature right outside your front door. We got one planet, so let's love, respect and enjoy it.

WHO WE SUPPORT
