ABOUT

Kyle Christensen is a partner at HHM CPAs with over 20 years of experience working with clients in the Construction and Real Estate (CARE) industries. He primarily helps clients with management advisory and “big picture” tax issues and challenges. CARE clients ask financial questions that demand expert knowledge. Because he possesses deep familiarity with their unique issues, Kyle is able to give them long-term solutions that meet and exceed their needs.

Kyle takes into account marketplace trends and best practices as he helps his clients to make crucial decisions with peace of mind. Kyle is one of the first certified construction industry financial professionals in the Tennessee area and is recognized by the Institute of Certified Construction Financial Professionals. He is an integral part of the HHM leadership team and specializes in providing timely technical services.

In addition to serving his CARE clients, Kyle performs accounting and assurance, tax planning, and management advisory services for clients in a number of other industries.

As a partner, Kyle has been responsible for developing and growing HHM’s cost segregation department. He is skilled at helping the firm’s clients by determining what real assets they are able to depreciate at a faster rate, saving them tax money and giving them greater financial flexibility as they move forward and plan for the future.

Kyle enjoys getting to know clients well and gaining the familiarity that comes with consistently working together. They have found that he is a trusted and very transparent partner.
