ABOUT

Rob Malone is a manager in the firm's Dealership Services Group. In addition to serving the audit and tax needs of dealerships, he also works with clients in construction, real estate, and electric distribution. The majority of Rob's time is spent providing various assurance and tax services for clients. His tax experience includes preparation of federal and state tax returns for multi-state entities and addressing complex tax issues. He joined the firm in 2012 after graduating Cum Laude from Lee University with dual degrees in Business Administration and Accounting.

Working full-time throughout college, Rob maintained a managerial role in a residential and commercial landscaping business and credits this experience with honing his client communication skills. Detail-oriented and analytical, Rob enjoys problem-solving for clients and encountering something new every day.

Outside of work, Rob serves as a board member for Signal Centers and his local church. On the weekends, he enjoys spending time on the golf course as well as with his wife, son and daughter.
