Services:

Tax Planning

ABOUT

As a Senior Tax Manager in HHM's tax department, Kim Huskey prepares and reviews payroll, personal property, and income tax returns. Working with several medical practices and other small businesses, she also provides worker compensation audits, personal property audits, and income tax projections to maximize savings for each client.

Kim's breadth of tax experience spans more than 20 years, including five years of private accounting in the manufacturing industry. Today, clients value her attention to detail and responsiveness. She never wants to leave loose ends.

When not working, Kim is usually found cheering on her favorite sports teams, the Atlanta Braves and Tennessee Vols, or spending time with her family and good friends. She and her husband have two children.
