Frequent Carton Recycling Questions

Are cartons recyclable? ▾

Yes. Made from mostly paper, the high-quality materials used in cartons make them very desirable for remanufacturing into new products.

Can cartons go in my curbside recycling? ▾

Does the plastic cap need to be removed? ▾

How is the paper in cartons able to hold liquid? ▾

Why don't all cartons have a recycling number on them? ▾

What's the difference between refrigerated and shelf-stable cartons? ▾

Solar panels

Good investment
Solar energy is increasingly popular, even in places that are not well known for their sunny climate. Today's solar panels have such good rates of efficiency that they can ...

Juan Pueblo @eco-citizen

Hi there! very informative this article :)
Right now I'm collecting carton for a nice project for a kinder garden. Feel free to join me on this challenge. Thanks!
