# NON-ASBESTOS GASKETS

## 150 LB.

Green compressed non-asbestos sheet is made from aramid and other synthetic fibers, and is bonded with NBR (nitrile). It is used in numerous applications in the process and water and wastewater industries. This material is resistant to oils and many mild chemicals and acids.

**Rated to 464°F.**

Tipco Gasket & Sealing Division inventories a full line of high performing, exceptional quality spiral wound gaskets.

Tipco offers in inventory, two styles of spiral wound gaskets:

1. Standard inner metal winding & outer centering ring
2. Tipco highly recommended spiral wound gasket with inner ring\*.

*\*The inclusion of the inner ring helps prevent in service damage to the winding due to media flow and also assists in preventing over compression.*

We inventory these gaskets in 304 & 316 stainless steel with graphite filler winding. Also available with PTFE filler.
