## BA (H) FASHION KNITWEAR DESIGN & KNITTED TEXTILES

---

Hi my name is Katie, at NTU I specialised in Fashion Knitwear. My passions include all aspects of fashion, travel and learning about diverse cultures. During my four years of study, I created a range of projects and garments for both men and womenswear, with my preference settled on womenswear. I gained valuable life and work experience securing a year working in industry with a global company in Switzerland, fuelling my desire to travel. Overall, my favourite project has been crafting my final collection, inspired by nature and improving wellbeing. I was fortunate to have this collection selected to be showcased at graduate 2021 fashion week, seeing my outfits modelled on the catwalk was a proud and emotional moment, a culmination of four years of hard work. On completing my degree, I would like to secure a position in the fashion industry, preferably abroad, expanding my knowledge, influence and vision.
