

REBECCA WHITLEY- JONES

BA (H) GRAPHIC DESIGN

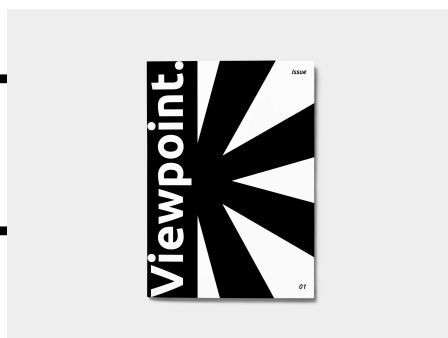

Hello, I'm Rebecca. I am an all-round creative and image-maker from Brighton. Within the past year, I have found a particular interest working in editorial and publishing but have enjoyed pushing myself to design in areas such as typography, illustration and animation. My final year work has focused heavily on projects that have purpose, meaning and create an impact. I have found that designing to educate and inform pushes me to create my best work. If we're talking priorities though, I'd hire me purely on the basis that everyone says I make a banging cup of tea. You can check out my work through the links below. Hope you enjoy, cheers! :)
