

# HONG DANG NGUYEN

## BA (H) GRAPHIC DESIGN

Hi my name is Hong Dang Nguyen and I'm a graphic design graduate based in the UK. My design practice is multidisciplinary where I constantly strive to find visual connections and their internal emotions or underlying structural logic. I love typography, editorial design, whether it be print or digital media. During my final year at NTU, I had the opportunity to work on a book called "The Olfactory Art" which I enjoyed the process of making it so much. I got to learn deeply about the new subject through a perfumer's perspectives and designed the book to celebrate the 'invisible' art form. For my future plans, I would love to learn more and explore different aspects of visual communication.
