

TOM MERCHANT-SMITH

BA (H) DESIGN FOR FILM & TV

Hi, I'm a Birmingham based designer looking to get into the Film and Television Industry. My three years at Nottingham Trent have been spent learning how to design, develop and visualise concepts for a range of film and television productions. This time has allowed me to expand my deep-rooted affection for film into a much wider and deeper understanding of the visual medium; equipping me with the industry knowledge and skills that go into creating the things we see on screen. With this showcase comes the end of my time in education, but I look forward to a career of continued learning and development where I can build upon the skills I've gained during my time at University.
