

FIN BURBRIDGE

BA (H) FILMMAKING

An aspiring cinematographer with an eye for abstract imagery and creative framing opportunities, with experience in filming a range of projects such as nature documentaries, music videos, commercials and narrative pieces. Through a passion for both the technical and creative aspects of filmmaking as well as experience within the camera department on two feature films I have become confident and capable when it comes to operating industry standard equipment such as the Sony Fs7, as well as developed proficiency within the Adobe creative suite and other video editing softwares such as Davinci Resolve and Final Cut through editing multiple creative projects of my own. With plans to study digital marketing and combine my previous studies with a more business focused environment I welcome all opportunities that allow me to apply this creative passion to my career path and future endeavours into the working world, be those creative or commercial.
