AGGIE KONIOR

BA (H) FASHION KNITWEAR DESIGN & KNITTED TEXTILES

Hi, I'm Aggie Konior. Experienced knitwear designer with a history of working in the fashion industry, skilled at managing multiple projects to meet deadlines. A born leader, garment technologist, and knitwear engineer with high attention to detail. I have a passion for traveling and exploring the world, learning their culture, and seeking inspiration. I also love reading and walking my dogs. I have great commercial awareness, formerly accessories designer for high street stores such as NEXT and ASDA. Currently working as knitwear product developer and vendor for high street stores such as Urban Outfitters UK and US, and Asos. Skilled in coordinating and executing seasonal lines from concepts to final products. Directly worked with vendors and for the vendors. I see myself in few years' time as a very successful individual that had achieved a lot in a short amount of time. As of now, I would like to gain more experience by progressing within the company and eventually be the manager.
