

# LUKE CLIFFORD

## BA (H) GRAPHIC DESIGN

My name is Luke, I am a 22 year old designer from Bedfordshire. I have always been interested in creativity from a young age, with some of my earliest memories of illustrating being on Microsoft Paint. In the years since, I've continued to educate myself around the world of graphic design whilst pursuing my own interests as I have matured. My final year of university has been a blast, and I feel my outcomes have allowed me to develop my skills and confidence whilst allowing me to follow my own personal direction. Some of my favourite projects this year are those in my interests of old school hip-hop, street food or mental and physical wellbeing. In the future I hope to work as a part of team where a collective goal for delivering exciting, bright and impactful work is at the forefront of what they do. I look forward to hearing from you.
