

SOPHIE HAIGH

BA (H) TEXTILE DESIGN

Hi I'm Sophie and I am an enthusiastic and ambitious textile designer, specialising in print design for both fashion and interiors, determined to develop a career in Textile Design. I am especially interested in the creative side, and have developed a strong commercial understanding through my work experience. My final year project Oasis Island has helped me to discover my love for colour and creating designs to uplift and bring joy. This project is inspired by a small Spanish island and the hidden beauty within in it. It is a vibrant women's Resort 22 collection that aims to create an escape from the trials of everyday life, evoking an uplifting, positive mood. With the issue of mass consumption in the textile in mind, this collection provides a sustainable way to keep up with fast pace changing trends and provide longevity, by offering reversible swimwear and multiway garments.
