

# SASKIA VERDERBER

---

BA (H) TEXTILE DESIGN

---

Fragilis is a women's fashion collection that explores the delicate shapes and textures that surround us in nature. Mainly inspired by florals, Fragilis aims to reconnect us to nature, reminding us how fragile the world is becoming. By combining digital embroidery with traditional hand embroidery techniques such as beading, there is an aspect of modernism that contrasts with the pastel and metallic hues. Ball gowns and corsets are the inspired application for this project, using mainly layered sheers.
