## BA (H) FASHION DESIGN

---

Whatever brief given, femininity and flattering fits are at the forefront of my design approach. With a torn love for both feminine style and athleisure, I often knit together these themes to create an amalgamation that I believe feeds into a missing market. Chic, feminine and flattering athleisure is the USP for my final collection. I have an eye for great commercial design and like to hone in on the finer details, after building a solid understanding into the customer behind any brief.
