

GABRIELLE OSEI

BA (H) FASHION DESIGN

I am a creative and dynamic Fashion Design student who is highly efficient and has a passion for exploring and developing concepts. I love the process of concepts coming to life through design and experimentation. My final year project was definitely my most enjoyable project as I was able to add a part of myself which added that much more meaning. Over my three years at Nottingham Trent I had the chance to study at The Fashion Institute of Technology in New York where I was worked with brands such as Pyer Moss and various stylists which allowed me to see fashion from a different lense. My dream is to eventually have my own brand which ignites change in the minds of all those who come into contact with it, to bring change and encourage power. I plan to gain more experience by working in various sectors within the industry.
