

LAYLA HENDERSON

BA (H) DECORATIVE ARTS

I am a multidisciplinary designer maker Dec Arts graduate at NTU specialising in metalwork, textiles, and ceramics with a particular interest in costume and jewellery. Resident at Bentinck Art Studios. I take much of my inspiration from nature and the surroundings I see on my travels and experiences. I have great passion for travelling & dancing & can often be found outdoors exploring with my young son and dog. I see inspiration all around me. I am excited by all things colourful, and I like this to reflect in my work. My style ranges from beautiful natural colours of the elements to bold & vibrant & exciting which is what I have hoped to bring to my final degree collection which is my interpretation of the geometric shapes, waves, and the glistening sea water that you see when you are at the beach bringing back those comforting feelings & memories you have while soaking up the gorgeous coastline.
