

Empower your users with
Online Learning

We work with you to design online learning courses that meet your training requirements

FYB's experienced trainers take the time to understand how your staff need to use systems within a business context, therefore providing trainees with content tailored to support their work.

Investing in Online Learning Modules will provide the following benefits:

- ▶ Increase employee engagement as training can be undertaken anywhere at anytime
- ▶ Streamline employee onboarding processes
- ▶ Decrease training costs as employees can re-learn key processes and procedures at anytime

Customised Online Learning

We develop customised online learning modules that focus on core skills which can either support new users, or act as a quick reference guide or refresher for all users.

Online Learning Modules can be developed to support the following:

- ▶ Business Processes
- ▶ Content Manager
- ▶ Compliance-based risk mitigation and safety
- ▶ and more

Features

- ▶ Custom designed with your organisation's branding and colours
- ▶ Video-based courses to engage visual and auditory learners
- ▶ Software simulation courses to engage kinaesthetic learners
- ▶ Closed captions
- ▶ Optional assessment feature
- ▶ SCORM Compliant

Prerequisites

- ▶ Access to environment if customised online learning modules is selected
- ▶ Organisation branding guidelines and logo

Support for Web Browsers:

- ▶ Adobe Flash Player version 10 (or later)
- ▶ Internet Explorer versions 8, 9, 10, 11
- ▶ Chrome (latest)
