CM2TEAMWORK
BY FYB PTY LTD

The FYB CM2Teamwork connector enables organisations to publish and maintain revisions and versions of documents from OpenText Content Manager to the project management platform Teamwork Projects

Using the FYB CM2Teamwork connector will provide the following benefits:

- ▶ Streamlines sharing and collaboration of project documentation internally and externally with stakeholders, saving significant time and costs in terms of project administration and management

- ▶ Intuitive interface, requiring no training reducing the cost of deployment

- ▶ Ensures your organisation is meeting its recordkeeping compliance requirements for the storage and management of documents and records within Content Manager

- ▶ Simple deployment and upgrade process reduces technical resourcing

What is Teamwork Projects

Teamwork Projects is a project management application that has everything you need to track a project from start to finish. Its flexibility, combined with the intuitive features the app offers mean your team will not only become better collaborators but they will massively increase their productivity on a daily basis.

Teamwork Projects is available on your iPhone, iPad, Android, Google Chrome, and the Web. Everything is in the cloud, accessible anywhere and anytime. Teamwork Projects is designed to work seamlessly with the tools you and your team already know and use.

Version 2.3.X Features

- Maintains project permissions, so users will only be able to view, upload and download documents from projects they have access to in Teamwork Projects
- Ability to check-out documents from Content Manager to Teamwork Projects for collaboration
- Ability to select single or multiple documents for upload from Content Manager to Teamwork Projects
- Ability to upload PDF renditions of documents from Content Manager to Teamwork Projects
- Ability to select single or multiple documents from Teamwork Projects for download to Content Manager as new revisions and/or removal from Teamwork Projects
- Maintains a track of events associated with each document in Content Manager

Prerequisites

- Content Manager 10x, 10.1x
- Access to the FYB CM2Teamwork connector requires the user to have a valid Content Manager License
- Valid Teamwork Projects subscription
- For users to create PDF copies of Microsoft Word, Excel and PowerPoint documents for upload via the connector, users will need to have the relevant application installed
