FYB CM2WEBSHARE

Course Duration
1 hour

Delivery Mode
Remote training session via Microsoft Teams

Training is delivered within your environment to contextualise the training to your setup and build version

The training session will be recorded and provided upon conclusion of training for your reference

Pre-requisites
Content Manager Introduction and Intermediate

Audience
Suitable for Content Manager Administrators or whitelisted users responsible for administering the publication of corporate information from Content Manager.

Please note, FYB can add participants to the CM2Webshare whitelisted user group on your behalf as part of training preparation.

This training course allows you to have up to a maximum of 10 trainees to attend.

Overview

This training course provides attendees with an understanding of how FYB's CM2Webshare can be used to administer and automate the publication of records from Content Manager to your website, intranet, Microsoft SharePoint and ePathway.

Attendees will learn how to configure table views to publish information, control what information is displayed and how it is displayed.

Topics

This training course will cover the following within CM2Webshare:

▶ Creating views to information through the configuration of tables
▶ Previewing and updating configured table views
▶ Customising the appearance and theme of table views
▶ Understanding the available embedding options
▶ Navigate and access statistics for your configured table views

Please note that the provision of training materials or digital handouts are not included in the training. However, online help guides are available to reference and quotes for custom training materials can be provided upon request.
