FYB DRAWINGS2CM ADVANCED

Course Duration

2 hours

Delivery Mode

Remote training session via Microsoft Teams

Training is delivered within your environment to contextualise the training to your setup and build version

The training session will be recorded and provided upon conclusion of training for your reference

Pre-requisites

Content Manager Introduction

Audience

Suitable for staff will be administering and maintaining Drawings2CM and have a Content Manager license.

This training course allows you to have up to a maximum of 10 trainees to attend

Overview

This training course provides attendees with an understanding of how FYB's Drawings2CM can be used to enable efficiencies in managing drawings.

Attendees will learn how to upload, share and retrieve drawings using FYB's Drawings2CM and administer the application.

Topics

This training course will cover the following within Drawings2CM:

▸ Overview of the interface
▸ Update the appearance and map appropriate Content Manager record type
▸ Define the displayed drawings metadata properties
▸ Upload and share drawings
▸ Search and retrieval of drawings
▸ Review drawings
▸ Use the Drawings2CM AutoCad connector

Please note that the provision of training materials or digital handouts are not included in the training. However, online help guides are available to reference and quotes for custom training materials can be provided upon request.
