

# Know what's right. Bite by bite.

## What is Planted?

Planted is meat from plants, or planted meat. Natural resources are conserved and animals respected - without losing the taste of meat.

## Does Planted taste just as good as "real" meat?

Even sworn meat lovers can enjoy Planted products. Planted technology mimics the taste, structure and nutritional information of meat. Freshly prepared, it is strikingly similar to animal meat. Give it a taste!

## What is planted.chicken made of?

**planted.chicken** only consists of 4 natural ingredients: pea protein, pea fibre, canola oil and water. And vitamin B12 is added. That's it. No flavouring enhancers or preservatives are used. Of course, it is free of animal products, chemical additives, gluten, soy, lactose and GMO (genetically modified organisms) components.

## What is planted.pulled made of?

**planted.pulled** consists of different vegetable proteins: pea, sunflower and oat proteins. In addition, it contains pea fibre, rapeseed oil and a fine mixture of spices. Like all Planted products, it is free of any flavouring agents and additives.

## Is Planted vegan?

Yes, all Planted products are 100% natural and vegan.

## What allergens does Planted contain?

Planted is generally free of wheat and gluten-containing grains. However, traces of gluten may be present during processing.
