

**Catalog #**                      **15a**
**Item number:**                      **10692**
**Description:**

3 Ply 150 Tan Nitrile COS

**International Designation:**

N/A

**Pulley Diameter, Minimum**

Minimum Pulley Diameter                      3.00 in

**Belt Strength:**

Tension Rating (PIW)                      150 PIW

**Construction:**

Compound Top Cover                      Tan Nitrile

Color                      Tan

Top Cover Thickness (in)                      (0.79 mm) 1/32 in

Top Cover Description                      Smooth

Compound Bottom Cover                      Tan Nitrile

Bottom Cover Thickness (in)                      (0.00 mm) 0.00 in

Bottom Cover Description                      Friction Surface

Number of Plies                      3

Overall Gauge (in)                      (3.57 mm) 9/64 in

Unit Weight- lb/PIW                      0.0700 lbs/PIW

Carcass Type                      Polyester

Compound                      Tan Nitrile

Temperature Range (°F)- High                      250 °F

Temperature Range (°F)- Low                      0 °F

**Splice Instructions:**

Splice Step                      Yes

Splice Finger                      No

**Other:**

Static Conducting                      No

Cross Rigid                      No

High Heat                      No

Impression Top                      No

Oil Resistant                      Yes

Fire Resistant                      No

FDA Approved                      Yes

**Suggested Fasteners:**

Flexco Plate/Rivet                      N/A

Flexco Hinged                      N/A

Alligator Staple                      #125

Clipper Lace                      #2

Alligator Lace                      #15

**Special Characteristics:**

Tan belts are popular on inspection lines because they are less tiresome on the inspectors' eyes. Also, tan is commonly used in fruit and vegetable processing because of its greater resistance to staining. This belt features a strong, all polyester carcass and is FDA accepted.
