

Capturing The Offsite Opportunity Through Collaboration & Technology

\$256B in New Available Profits is Moving Offsite

Companies that fail to invest in building their offsite business are at risk of getting left behind.

Buildings & Structures**

What Are Project Stakeholders Looking For In Partner Factories?

Project stakeholders are taking on more risk by coordinating offsite production and onsite project schedules and therefore need a better approach to collaborating with their partner factories. **Technology can help bridge this gap.**

Owner

“The organizations we partner with are going to have to have a proven track record, a high-quality product, and the technology to help us track progress remotely, in a manner that allows us to see delays well before they occur so we can come up with a solution to keep production on schedule.”

Senior Vice President of Construction,
SoLa Impact Fund

Builder

“Offsight has allowed us to establish a consolidated central hub of information by which our QC staff is then able to utilize and input live data to record, track & monitor deficiencies.”

Project Manager,
Cahill Contractors

Third-Party Inspector

“With Offsight our inspectors can verify building code conformance with real-time collaboration with our clients. It also helps our clients track and resolve issues and completely streamline a lot of the back and forth that’s lost with manual processes.”

President,
ICC NTA

What to Look For When Implementing a Technology Solution

What are the main criteria to focus on when evaluating different software.

Seamless Collaboration With Stakeholders

In what ways has Offsight helped improve collaboration with project stakeholders, including owners, inspectors, and builders?

Offsight Sets Our Building Component Customers Up for Success

What are the main criteria to focus on when evaluating different software.

Steel Fabricator

“Offsight helps bridge the important communication gap between different project stakeholders and ensures all issues are resolved in a timely manner and schedule dates are achieved.”

Bathpod Manufacturer

“Our clients trust us to deliver a superior quality product so maintaining an exceptional production process is a necessity. Offsight is a must-have tool that helps us maintain this process and meet our quality and reporting needs.”

Wall Panel Manufacturer

“We turned to Offsight's best in class project management software to help us manage our process and ensure we meet our customers expectations.”
