

Aviation Security Manager (ASM) - Initial

Our 4-day ASM course is specifically designed for UK security managers employed by airports, airlines (and their agents), cargo regulated agents, in flight suppliers, airport suppliers and security providers. It is aimed at those who hold a responsibility to ensure their Aviation Security Programme and its' implementation meet the requirements of the National Aviation Security Programme (NASP)

Overview

This course will ensure that all Aviation Security Managers understand their role and responsibilities in ensuring that a security programme and its implementation meet all legal provisions.

Also to ensure that Aviation Security Managers understand the legal framework of aviation security, the current threat and are aware of the wider security issues.

Following the new DfT syllabus our ASM course will also provide you with information and guidance to enable you to effectively implement security procedures that not only manage your risk but enhance your operation and full comply with international and national requirements. The course will target your specific areas of responsibility in relation to the mandatory requirements
