## WTs 6 Zone Walk Through Metal Detector

Advanced High Discrimination Multiple Zone Detection. The WT6 is a Continuous Wave 6 Multi Zone Metal Detector; vertical zones monitor the left, centre and right side of a person whilst the horizontal zones determine the height at which a weapon or protected asset is carried.

If a metallic weapon or contraband object is transported through a zone, the zone's receiver channels and sophisticated mapping software compute its location within the archway.

The WT6 can operate in "All Metal Mode" or advance "Discrimination Modes". Factory Presets and under programmable modes can target specific types of metal or alloys for enhanced loss prevention.

### STANDARD FEATURES

- 6 Independent Horizontal Detection Zones
- Advanced Discrimination Capabilities
- Factory & User Definable Presets
- Integrated Floor Mounting Boots
- Front View Panel LEDs
- Security Level Program Factory Presets
- User Programmable Processor
- Interference Rejection Circuit
- Power requirements - 115-230 VAC, 50-60 Hz
- Harmless to Pacemakers and Pregnant Women
- Digital Signal Processing & Diagnostics
- Adjustable Zone Sensitivity
- Security Password
- Continuous Wave Technology

### OPTIONAL FEATURES

- Networking Software & Hardware
- Wheel Kit for Easy Transporting
- Back Up Battery System
- Fibre Optic Remote Display
- Executive Styling
- Weather Proof Exterior Finish (This can support Rain, Dust, Heat and Cold Weather)
