Garrett SuperScanner

The Garrett SuperScanner Hand Held Metal Detector is an ideal solution for the detection of concealed metallic items at Airports, Ports, Prisons and other Public & Corporate facilities.

It meets or exceeds all performance specifications of the National Institute of Justice Standard - 0602.02 "Hand-Held Metal Detectors for Use in Concealed Weapon and Contraband Detection."

Meets CE and other international standards for electromagnetic compatibility and safety.

Extensive research has found no information that would indicate Garrett products have adverse effects on pregnancy, medical devices such as pacemakers or magnetic recording media, however, directives by physicians and medical device manufacturers regarding metal detectors should be followed.
