## WG 17 Hand Held Metal Detector

The WG 17 Hand Held Metal Detector is a high performance fully automatic, 2-position sensitivity hand held metal detector that is easy to use and suitable for applications where a higher degree of performance is required.

It has two levels of sensitivity control Ideal for the detection of medium to small size metal objects during security screening applications.

### SPECIFICATIONS

- Alarm Indicator: Simultaneous Audio Beeper/Visual high intensity LED
- Battery Life: Standard 9Volt Alkaline MN1604): 400 hours. Optional Rechargeable NiMh: 80 Hours
- Construction: Ultra rugged ABS injection moulded case construction
- Dimensions: Length: 360mm. Width (probe end): 105mm - Body 55mm. Height: 35mm
- Dust and moisture protection: Conforms to IP64 (IEC 529)
- Humidity: 98%
- Operating Frequency: 20Khz
- Operating Temperatures: -20°C to +65°C
- Sensitivity: Back Position – general purpose metal detector. Forward Position – super high sensitivity metal detector.
- Tuning: Fully Automatic
- Weight: 280grms including battery

### SPECIFICATIONS

- Battery Inserted Cartridge style (no wires)
- Battery Low: Simultaneous Audio/Visual LED
- Conforms to international standards: CE mark IEC, NILEC, FCC, FAA. Medically tested and approved
- Controls: Power Switch: Momentary On/Off
- No risk to persons with pacemakers or pregnant Women. No interference to magnetic recorded material
- Target Size Discrimination (at constant sweep): Short Alarm = small target, Long Alarm = large target
- Tested and approved to EEC EN61000-6-1 Table 1; 1.2 Radiated Immunity and 1.3 Electrostatic Discharge. EN61000-6-3 Table 1 Radiated Emissions
